

NOBI TALAI

NT.02

The NOBI TALAI collections tell the tale of the modern-day nomad. Free spirited and worldly wise, she carries herself with an air of confidence. Her independence and freedom make her a strong yet emotional woman who finds her sense of inner peace and authenticity in the NOBI TALAI fashions.

Artistically draped, flowing fabrics combined with architectonic cuts create monochromatic looks that radiate self-confident composure.

Traditional elements of Near Eastern culture are modernly interpreted through purist aesthetics to form an unmistakable, contemporary silhouette.

NOBI TALAI's creations are timeless favourites that remain with their wearers for many seasons on their journey through life.

The NOBI TALAI collections are created by Berlin based designer Nobieh Talaei, who opens up the second chapter of the story with NT.02.

NT.02 presents the wrapping and layering techniques characteristic of NOBI TALAI in the form of softly draped capes, elegant tunics and delicate blouses to create casual yet chic everyday outfits. The colour scheme of muted natural shades, anthracite and taupe further highlights the subtle design language.
