

ISABELL DE HILLERIN
BERLIN

*„Inside Empire“
Fall/Winter 2016*

This season Isabell de Hillerin is playing with the shifting angles of our perception.

Best pictured by those film noir moments when time stops and camera slowly zooms in to reveal curious details previously left unnoticed causing a dramatic turn in the story. A closer look changes the vision of reality.

To sharpen the mind through irritating images is what serves as a red line in the latest collection. It is inviting you to look twice, for not everything is what it seems.

Asymmetrical cuts, special detailing and hidden layers are an interpretation of the Lynchian mystery. Made in ISABELL DE HILLERIN's signature style with beautiful cuts, fine fabrics and handmade finishes of traditional artisanry. This collections mood feels like travelling through the past towards the unknown future.
