

AUGUSTIN TEBOUL

The Fall/Winter 16/17 Collection of AUGUSTIN TEBOUL reflects the presence by infiltrating shades of color like a breath of optimism into a black painting.

The result is a distorted chic grunge look , which is characterized by the combination of short dresses with biker jackets , long dresses with chunky knit , tight-fitting pants with multi-colored embroidery . Some pieces appear like a glittering painting with vivid , fibrous penetrating colors in irregular mesh structures and loose knit with Swarovski Crystals. An abstract geometry is reflected in shimmering leathers.
The collection is a dialogue between the black and color , between chaos and straightforwardness
